Hi Web CMS. Sending this to you now in hopes this helps you with a quick turn-around request for later this afternoon.

Don't do anything now.

But we will probably go live with the draft Gold King Mine site shortly. The current draft site is <https://wcms.epa.gov/goldkingmine>

Its final URL will be <https://www2.epa.gov/goldkingmine>

**As soon GKM goes live** - I or maybe TIM DAVIS WILL LET YOU KNOW FOR SURE - can you please be ready to make it so that <http://www2.epa.gov/region8/gold-king-mine-release-emergency-response> will redirect users to the new GKM site?

Thanks.

Cool!

And when it goes live, can you send an urgent message to WebCMS Support and have them immediately redirect <http://www2.epa.gov/region8/gold-king-mine-release-emergency-response> to the new site?

Thanks!

Hi George,

I just heard that the media call may have indicated that it's OK to go. So, Jeff Morin or I could take it live within seconds after you or Roxanne or Liz gives the OK.

Thanks!
